

Public Schools, Public Menace: How Public Schools Lie to Parents and Betray Our Children, 2005, 387 pages, Joel Turtel, 0964569329, 9780964569324, Shawn K. Hall, 2005

The book explains why public schools are a menace to our children and waste their precious time. The book also shows why public schools are beyond repair, and simply cannot give children the education they need and deserve. The author reveals how public schools cripple children's ability to read and indoctrinate innocent children with anti-parent, anti-American, and anti-Judeo-Christian values. The book also explores why public-school authorities now pressure millions of parents to give their children mind-altering drugs like Ritalin. The good news is that parents don't have to put up with a third-rate, mind-numbing public-school education for their kids any longer. The author gives parents a wealth of practical advice, strategies, and resources about quality, low-cost education alternatives parents can use to give their kids a great education, if they decide to take their kids out of public school. He gives detailed lists of quality, low-cost Internet schools, teaching books, and home-schooling resources parents can use to give their kids a great education. Dr. Laura Schlessinger, syndicated radio talk-show host said about "Public Schools, Public Menace" that , "This book is a must read for every parent"
